## Type of article:

Full length

Short communication

Review

Perspectives/Opinion Pieces

## Files to Include

Y N N/A

**This author submission form.**

**Cover page** containing all of the following sections Title, Authors, Author Affiliations, Author Contributions and an Ethical Statement.

**Main text** of the appropriate length and containing appropriate sections (author details must NOT be included).

**Figures** as a single Word or PDF file.

**Tables** as a single file in a Word document.

**Supplementary data/files** can be submitted as single or multiple files (e.g. supplementary figures, R codes). Any links to online repositories containing data/files should be provided within one of the files.

## **Additional checklist**

Y N N/A

Writing and figure and table text is in BRITISH English following that of the Oxford English Dictionary.

Time and date should specify 24-hour clock e.g. for time of day use 0900, for dates use 7 July 2017 etc.

The research adheres to the British Herpetological Society's Ethical Policy and Guidelines, which can be found here – <https://www.thebhs.org/images/stories/BHS-ethicspolicy.pdf>.

In-text citations and references follow the journal style.

If any proposed taxonomic changes occur within the manuscript then these must be recorded on ZooBank before publication.

Any datasets, code, supplementary figures etc. will be deposited in an online repository.

By submitting a manuscript, authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted.

The main text is double-line spaced.

The main text contains line numbers.

The main text contains page numbers.

Common Latin abbreviations (for example e.g. and i.e.) are not italicised.

Acronyms are defined at first usage e.g. snout-vent length (SVL).

Research and export permits listed in acknowledgements.

All figures appear in the main text are abbreviated as (Fig. 3).

Numerical ranges are separated by en dash with no spaces e.g. SVL 1–35.

**Notes:**
