What can you expect ?

South Africa is a land of extremes and contrasts. Vast in area this tour focuses on introducing you to the South African wildlife and tourism areas of the Western Cape in particular but includes the magnificent Big 5 game areas of Pilansberg National Park . Weaving the story of South Africa's history as well as current political and social arenas your dedicated English speaking tour leader will inform your understanding of the country 50 million people call home.

Your particular interest in Herpetology is the basis for the tour and we include numerous stops, professionals , organisations and areas for you to immerse yourself in your passion. Even some of our Hotels are picked with your wanderings in the garden in mind. We bring enthusiasts, conservationists and leaders in their field to add depth to your experience and ample opportunity for you to explore areas individually.

The tour offers you a complete experience, from scenic beauty, culinary delights, wildlife diversity, breathtaking botany and the potential to add to your Herpetological checklist but definitely to add to your understanding.

Please contact the Conservation Officer Jan Clemons on 07720814414 or by email janclemons2015@gmail.com to register your interest and for more information.
