

Notes on the behaviour, habits and natural history of *Caecilia atelolepis*

JUAN DAVID FERNÁNDEZ-ROLDÁN & JOHN D. LYNCH

Table 1S. Measurements and meristics of a male *Caecilia atelolepis* (ANDES-A 5444*) from Supatá, Cundinamarca, Colombia

Characters	ANDES-A 5444
Total length (mm)	790
Width at mid-body (mm)	15.4
Length/width (times)	51.9
Snout projection (mm)	3.3
Snout tip-eye level (mm)	7.9
Distance between the eyes (mm)	7.9
Eye-mouth's commissure distance (mm)	6.4
Eye-nostril distance (mm)	4.6
Eye-tentacular opening (mm)	5.3
Nostril-tentacular opening (mm)	2.1
Distance between the nostrils (mm)	4.2
Antermost scale found at groove no.	No scales
Primary grooves	127
Secondary grooves	0
Complete primaries towards terminus	2 (ventrally)
Complete secondaries towards terminus	0
Grooves interrupted by vent	0
Anterior denticulations on vent	5
Posterior denticulations on vent	5
Premaxillary-maxillary teeth	5–6
Vomeropalatine teeth	7–8
Dentary teeth	5–5
Inner mandibular teeth	1–1
