

## Geographical distribution and range extension of *Lycodon effraenis* in Thailand

ROBIN PRINGPUANGKEO & ANDREA VITTORIO POZZI

**Table 1S.** Observations of *Lycodon effraenis* from citizen science data (iNaturalist), social media reports (Facebook and Instagram), and a personal record. The table reports: the number of the record (ID), the province where the observation took place (Province), decimal latitude (Latitude), decimal longitude (Longitude), from where the record was sourced (Source), and for link in case of social media records (Link). <sup>1</sup> private record. <sup>2</sup> province details provided by the authors of the post. <sup>3</sup> personal record, which was also added on iNaturalist from one of the authors (RP).

ID	Date	Province	Latitude	Longitude	Source	Link
