

## Erratum

We regret that an error was made in the following article:

Kaliontzopoulou, A., Carretero, M.A. & Sillero, N. (2010). Geographic patterns of morphological variation in the lizard *Podarcis carbonelli*, a species with fragmented distribution. *Herpetological Journal* 20 (1), 41–50.

Figure 3 on page 46 is incorrect. The correct version is reproduced below.

**Fig. 3.** IDW interpolation maps produced for the first three canonical variates of biometric variation and UPGMA phenograms based on the corresponding generalized distances between populations for male (top) and female (bottom) *P. carbonelli*. A, E: first canonical variate, B, F: second canonical variate, C, G: third canonical variate. In interpolation maps, lighter colours represent higher values and darker colours, lower values.
