

Herpetological Journal

Volume 26, Number 1, 2016

Contents

Conference report	1–2
Full papers	
Ontogeny of pileus shape in <i>Natrix natrix</i> and <i>N. tessellata</i> <i>Marko Andjelković, Veljko Blagojević, Ljiljana Tomović & Ana Ivanović</i>	3–9
Factors affecting the spatial ecology of the lizard <i>Liolaemus wiegmanni</i> in the pampasic coastal dunes of Argentina <i>Oscar A. Stelletti, Carolina Block, Laura E. Vega, Juan P. Isacch & Félix B. Cruz</i>	11–19
Description of the tadpole of <i>Alsodes neuquensis</i> Cej, 1976 and comparison with the sibling species <i>A. gargola</i> Gallardo, 1970 (Amphibia, Anura, Alsodidae) <i>Diego A. Barrasso, Leandro Alcalde, Boris L. Blotto, & Néstor G. Basso</i>	21–31
Lizard diversity in response to human-induced disturbance in Andean Ecuador <i>Bryony A. Tolhurst, Vanessa Aguirre Peñafiel, Paola Mafla-Endara, Maureen J. Berg, Mika R. Peck & Simon T. Maddock</i>	33–39
Life history traits of a Neotropical microhylid (<i>Dermatonotus muelleri</i> , Boettger 1885) from the Arid Chaco, Argentina <i>Florina Stănescu, Federico Marangoni, Ivana Reinko & Dan Cogălniceanu</i>	41–48
Provenance of <i>Ichthyosaura alpestris</i> (Caudata: Salamandridae) introductions to France and New Zealand assessed by mitochondrial DNA analysis <i>Jan W. Arntzen, Tania M. King, Mathieu Denoël, Iñigo Martínez-Solano & Graham P. Wallis</i>	49–56
Short notes	
Detection of <i>Salmonella enterica</i> in a sand lizard (<i>Lacerta agilis</i> , Linnaeus, 1758) city population <i>Krzysztof Dudek, Ryszard Koczura, Monika Dudek, Zofia Anna Sajkowska & Anna Ekner-Grzyb</i>	57–60
Feeding regime and food availability determine behavioural decisions under predation risk in <i>Pleurodema thaul</i> (Anura: Leiuperidae) tadpoles <i>Mariana Pueta, Félix B. Cruz & M. Gabriela Perotti</i>	61–64
