

## Are fibrocement slabs a useful tool for monitoring reptiles? The case of *Hierophis viridiflavus* in its south-western limit of distribution

Iñaki Romero-Iraola, Xabier Rubio, Alberto Gosá & Ion Garin-Barrio

**Table S1.** Corresponding transect number (id), locality and co-ordinates for each fibrocement slab (n=81), with reptile (excluding *Hierophis viridiflavus*) and *H. viridiflavus* records (without recaptures) for each site

Id	Locality	Long	Lat	Reptile abundance (snakes/lacertids)	<i>H. viridiflavus</i> detected
